      UCIA was cancelled; therefore there is no report to give.

8. **Engagement Discussion**

   Christine passed out a handout (see attached) of the survey to gather information regarding Engagement. Discussion included how would the survey be deployed; who the audience should be; and what edits should be made to the survey. Additional discussion focused upon the goal of the survey and what the commission hoped to achieve by completing this.

   Some suggestions included dividing the survey up to different demographics (student, faculty, administration, community partners); open ended questions; focus group for students; what information should we expect from the survey; and that the survey should go through the Internal Review Board. A suggestion was also made for someone from the survey research center to come to one of the future COIA meetings to discuss what a successful survey might look like.

   Christine will send out the survey electronically for people to edit and send back their updates before April 11th.
