4. **New Business**

**Commission on Graduate Studies and Policies**
Resolution 2016-17F
Resolution to Establish a Horticulture Major with the Master of Science in Life Sciences Degree

Dr. Sally Paulson presented this resolution for first reading. There is a declining enrollment in the Master of Science in Horticulture and there is still some interest, so the intention is to join with other departments in the Master of Science in Life Sciences.

**Commission on Undergraduate Studies and Policies**
Resolution 2016-17E
Resolution to Discontinue Major in Economics, in Bachelor of Science in Business

Dr. Dean Stauffer presented the resolution for first reading. There is currently a major in Economics in both Business and Science. The Pamplin College of Business has developed a transition plan for this discontinuation of the economics major in the college. This will result in offering only one economics major at the university, and that will be in the College of Science.

**Commission on Staff Policies and Affairs**
Resolution 2016-17A
Resolution on Amendment to Staff Policies and Affairs

Mr. Robert Sebek presented the resolution for first reading. This resolution identifies what remedies Staff Senate will have when senators are not attending meetings as well as what constitutes an excused absence.

5. **General Assembly Update**

Dr. Sands indicated that the McAuliffe administration has issued its budget proposal, in December, and both the House and the Senate have now stated their positions. The number one concern is around appropriations. It looks like there will be a cut of approximately 5% which is around 1.3% of Virginia Tech's total operating budget (a little over $8 million). The tax revenues are not as high as they were projected to be. It appears that Agency 229 will be protected.

One recommendation from the House would restrict our out-of-state percentage of undergraduates to 30%. Virginia Tech is currently at 27.4%.

There is a compensation program in both the Senate and the House. The Senate has a 2% salary increase for faculty and a 3% salary increase for staff. The House has a 3% salary increase for both faculty and staff. When there is an increase, Virginia Tech is responsible for 60% of the increase while the state is responsible for 40%. There doesn't appear to be any contingent language.
6. **Announcement**
