

Climate Action, Sustainability, and Energy Committee

2024-2025 Members

CHARGE: To provide guidance to the university administration on implementation of the university's Climate Action Commitment and opportunities to enhance Virginia Tech's pursuit of environmental quality and social sustainability. The committee makes recommendations regarding the application of policies; infrastructural and operational changes; educational strategies and modifications; and other steps intended to foster broad engagement with the university's environmental goals. The committee oversees subcommittees that each carry out aspects of the committee's charge. Reports to: University Council Cabinet.

Chair - President will appoint annually from among members of the committee
